SKILLS

- › 10+ years of extensive Java experience with **Tomcat**, **Spring Framework**, **Hibernate**, **AspectJ**, building and consuming **SOAP** and **REST** APIs.
- › Strong, recent focus on client-side: **JavaScript**, **CSS**, **HTML5**, **Backbone.js**, **jQuery**, **Require.js**, **LESS**, **Handlebars.js**, and **GWT**.
- › Polyglot development experience: **C#**, **Objective-C**, **Ruby**, **Python**, and **PHP**.
- › SCM: **Git**, **SVN** and **CVS**.
- › DevOps with **Linux**, **Amazon** and **Heroku**.
- › Unix utilities such as **sed**, **awk**, **vi**, and **L^AT_EX**.
- › Good development experience with **Android** and **iOS**.
- › Strong with RDMS systems like **Postgresql**, **MySQL**, and **Oracle**, and noSQL solutions such as **CouchDB**, **Riak**, **Neo4j**.

PROFILE

I'm a well-rounded individual with over a decade of experience in leading teams that ship powerful and innovative solutions.

I'm passionate about all aspects of software development, from developing native mobile and HTML5 client applications to architecting frameworks and RESTful APIs that scale on the backend. I'm intellectually curious and am always learning new languages and concepts.

I recently completed my M.S. in Computer Science focusing my research on applying combinatorial testing practices to rich web applications.

EXPERIENCE

LDS Church, 2011–Present

Project lead and solution architect of three sensitive projects for the senior leadership of the LDS Church.

Christopherson Business Travel, 1999–2010

Manager of software development team, lead developer, lead architect and decision maker in all things technology. CBT's proprietary technology was a key part of their value proposition, contributing to rapid growth from 20 million (1998) to 260 million (2010) USD in annual revenue.

EDUCATION

2012 **M.S., Computer Science**
Utah State University

2005 **B.S., Computer Science, Cum Laude**
Weber State University
